

May Recreation 2025

LEARNING 'N MOTION; PRESCHOOL WITH A TWIST! Your child is a unique individual so why not give them a unique experience?! Our program is created around physical development, which most kids lack in the traditional classroom setting. Ms. Leslie, who has her master's degree in early childhood development & elementary education, and Ms. Jan, our head coach who has been with us for 29 years, have come up with an interactive program to get the kids moving and help develop their gross/fine motor skills along with the academic skills needed to enter the kindergarten classroom! Call us today for more info and sign ups 😊 **LIMITED SPOTS AVAILABLE!!**

Remember to sign up for Summer classes!!
They are filling fast!
